

# GROUP GUIDE WT-500

The itour Group Guide W-500 is a very affordable and popular solution for group guides. Together with the battery, the Group Guide W-500 only weighs 70 grams. This guide for tour groups uses a small transmitter with a microphone to communicate with the tour's individual participants, who are all provided with a compact receiver and headphones. Each tour participant can individually adjust the volume on their own receiver. With a total of 40 channels available, several guided tours can take place at the same time and in the same space.

The itour Group Guide W-500 offers the ideal solution for a range of tour issues.

- Everyone on the tour can hear the guide in excellent audio quality without needing to stand close by. A single guide can easily lead a large group – and this system is easy on the voice.
- Tour guides save time, since there is no need to wait for all tour participants to gather at the same spot.
- Group tours can be conducted in churches and museums without disturbing other visitors, or in companies without disturbing the people working there.

The technology is simple to use and offers a high-quality audio experience. itour delivers the devices where you need them and provides professional equipment maintenance. Depending on your needs, Group Guide offers a number of different models.
